

BRITISH TUNNELLING SOCIETY

Thursday 15th March 2012 at 6.00pm

At The

**INSTITUTION OF CIVIL ENGINEERS
ONE GREAT GEORGE STREET, WESTMINSTER, LONDON SW1P 3AA**

HIGH PRESSURE COMPRESSED AIR LAUNCH OF THE ITA/BTS CAWG

"GUIDELINES FOR GOOD WORKING PRACTICE IN HIGH PRESSURE COMPRESSED AIR"

DONALD LAMONT – Animateur ITA WG5

WERNER BURGER – Herrenknecht AG

TONY RIDLEY – Tony Ridley Hyperbaric Associates

CLAUS MAYER – Nordseetaucher

High pressure compressed air is defined as compressed air at pressures above current statutory limits.

There is a small but increasing number of tunnels being planned or built for which HPCA may be required.

The speakers will outline the requirements for such work including the impact on TBM design as well as presenting experience to date in Britain and abroad.

Tea and biscuits will be available at 5:30pm

Advance booking not required

In case of any query please contact; The Secretary, BTS Tel: 020 7665 2229
